EDUCATION

BINUS University

Jul 2024 – Present

Bachelor of Computer Science, Data Science

GPA 3.75 of 4.00

PROJECT EXPERIENCE

AAPL Stock Price Forecasting | Tensorflow, LSTM, Skicit-Learn

Feb 2026 – Jun 2026

Deep Learning Project

- Developed a time-series forecasting model using LSTM recurrent neural networks to predict Apple Inc. (AAPL) stock price movements.
- Evaluated baseline and modified LSTM architectures, analyzing loss convergence, generalization gaps, and error metrics (MAPE 1.71% vs 3.26%).

Smoking Detection | YOLOv8

Feb 2026 – Jun 2026

Deep Learning Project

- Developed a real-time object detection model using YOLOv8 to identify vape and smoke instances from images, optimizing precision and recall for visual monitoring.
- Curated and annotated a custom dataset of smoke and vape images, applying data preprocessing and augmentation to ensure diverse training conditions.
- Evaluated model metrics using Precision-Recall curves and confidence thresholding to balance false positives and detection sensitivity.

Credit Score Risk Classification | Scikit-Learn, XGBoost

Jan 2026

Machine Learning Project

- Built a 3-class credit score prediction model on 50,000 customer records, performing data cleaning, missing-value treatment, outlier handling, categorical encoding, and domain-specific feature engineering.
- Compared Random Forest and XGBoost using 5-fold GridSearchCV with macro recall optimization; achieved 75% test accuracy and 0.74 macro F1-score with XGBoost.
- Engineered loan-type and credit-history features and analyzed XGBoost feature importance to identify key predictors of credit-score classification

CAMPUS ORGANIZATION ACTIVITIES

BINUS University First Year Program 2026, Jakarta

Jul 2026 - Present

Freshmen Partner and Freshmen Leader

- Ensuring the smooth execution of freshmen mentoring activities during the first and second semesters
- Being responsible for mentoring 24 freshmen throughout their first year academy
- Assisting and guiding freshmen during their first year of university studies

Data Science Club, Jakarta

Dec 2025 – Present

Economic Funding Activist

- Generated funding for organization events and competition entries by planning and executing merch/snack sales campaigns.
- Communicated with external vendors and buyers to maintain smooth sales transactions and achieve target fundraising goals.
- Collaborated with a team of 7 members to manage merchandise distribution, inventory, and budget allocation.

Secretary of the New Student Enrollment Event

- Coordinated cross-regional communication with Person in Charge across 7 BINUS regions (Kemanggisan, Alam Sutera, Senayan, Bekasi, Malang, Bandung, and Semarang) to ensure seamless event alignment.
- Drafted and finalized comprehensive event proposals and official documentation for the Orientation & Transition Program KMK 2025.
- Maintained central document repositories and communications, ensuring accurate records and smooth information flow between multi-region organizers.

CERTIFICATIONS

Fundamentals of Deep Learning

Oct 2026

NVIDIA

Machine Learning Foundation

May 2026

AWS Academy

LANGUAGES AND SKILLS

- Indonesia (Native), English (Limited Working Proficiency)
- Python (Pandas, NumPy, Scikit-Learn, YOLOv8), SQL (MySQL), Power BI, Excel, Canva
- Passionate in: Machine Learning, Statistical Modeling, Predictive Analytics.

ACHIEVEMENTS

Summa Cum Laude Award for Non-Academic Excellence, Jakarta

Dec 2023

Awarded for outstanding non-academic excellence and leadership.

Magna Cum Laude Award for Non-Academic Excellence, Jakarta

Jun 2022

Awarded for outstanding non-academic excellence and leadership.
